A Place Where Dreams Are Born Cheju Halla University

Cheju Halla University was founded in 1969 and has developed into a prestigious private school for the last half century. In the era of the tech-led Fourth Industrial Revolution, we set out for a new era under the banner of 'UNIVERSITY 5.0', a university that trains talent who will lead the new human-centered technological society.

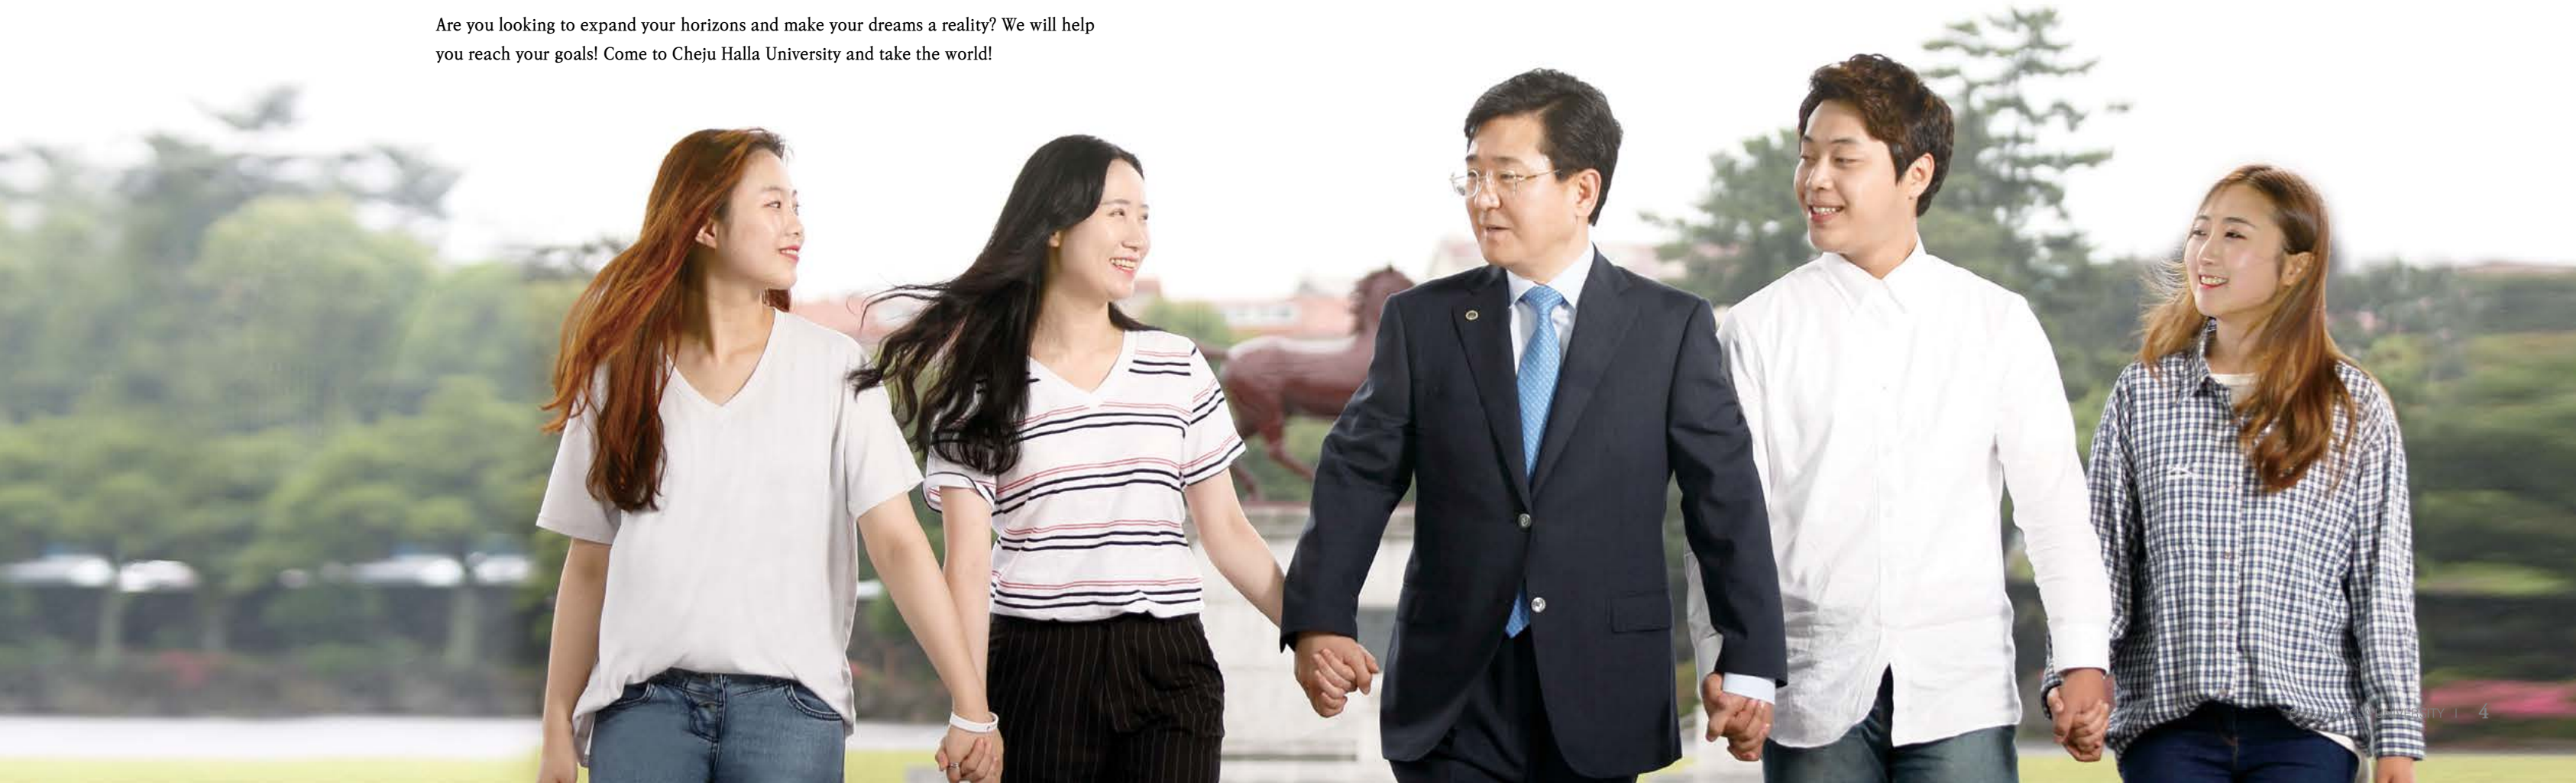

Cheju Halla University aims to improve the quality of our education and ensures that it meets global standards. Under the system of 'LEARNING 5.0', we apply a differentiated educational process based on self-study and inquiry. We are also pursuing practical exchange programs with prestigious universities in the United States, Australia, Europe, Japan, and China. Through practical exchange programs with prestigious universities, we are developing the ability to confidently challenge the world.

We offer students, especially in the fields of tourism, nursing, health sciences, and information technology, dual-degree and joint educational programs with distinguished universities from around the world. We have enhanced our status as a specialized university by creating a globalized educational environment through operating overseas employment programs with Japanese and Australian regional industrial bodies.

Are you looking to expand your horizons and make your dreams a reality? We will help you reach your goals! Come to Cheju Halla University and take the world!

Number of Scholarship Recipients	10,447
Total Scholarship Amount	13,331,562,680 KRW

〈2023 Figures〉

- Various Programs for Employment and Enhanced Learning
- Various Welfare Systems and Cutting-Edge Education Infrastructure for Students

Various Student-Centered Welfare Systems

Various Welfare Programs

We offer students a wide variety of facilities to make their lives more comfortable, including a large cafeteria with a wide range of menu choices, a campus bookstore with a variety of books on subjects from vocations to liberal arts, the best dormitory in Jeju, a convenience store and banking facilities. The campus is easily accessible in its downtown location.

Commuter Bus Service for Long Distance Students

For the convenience of the students commuting long distance, the University provides free transportation to and from the main spots in the city.

Professor-Advisor system

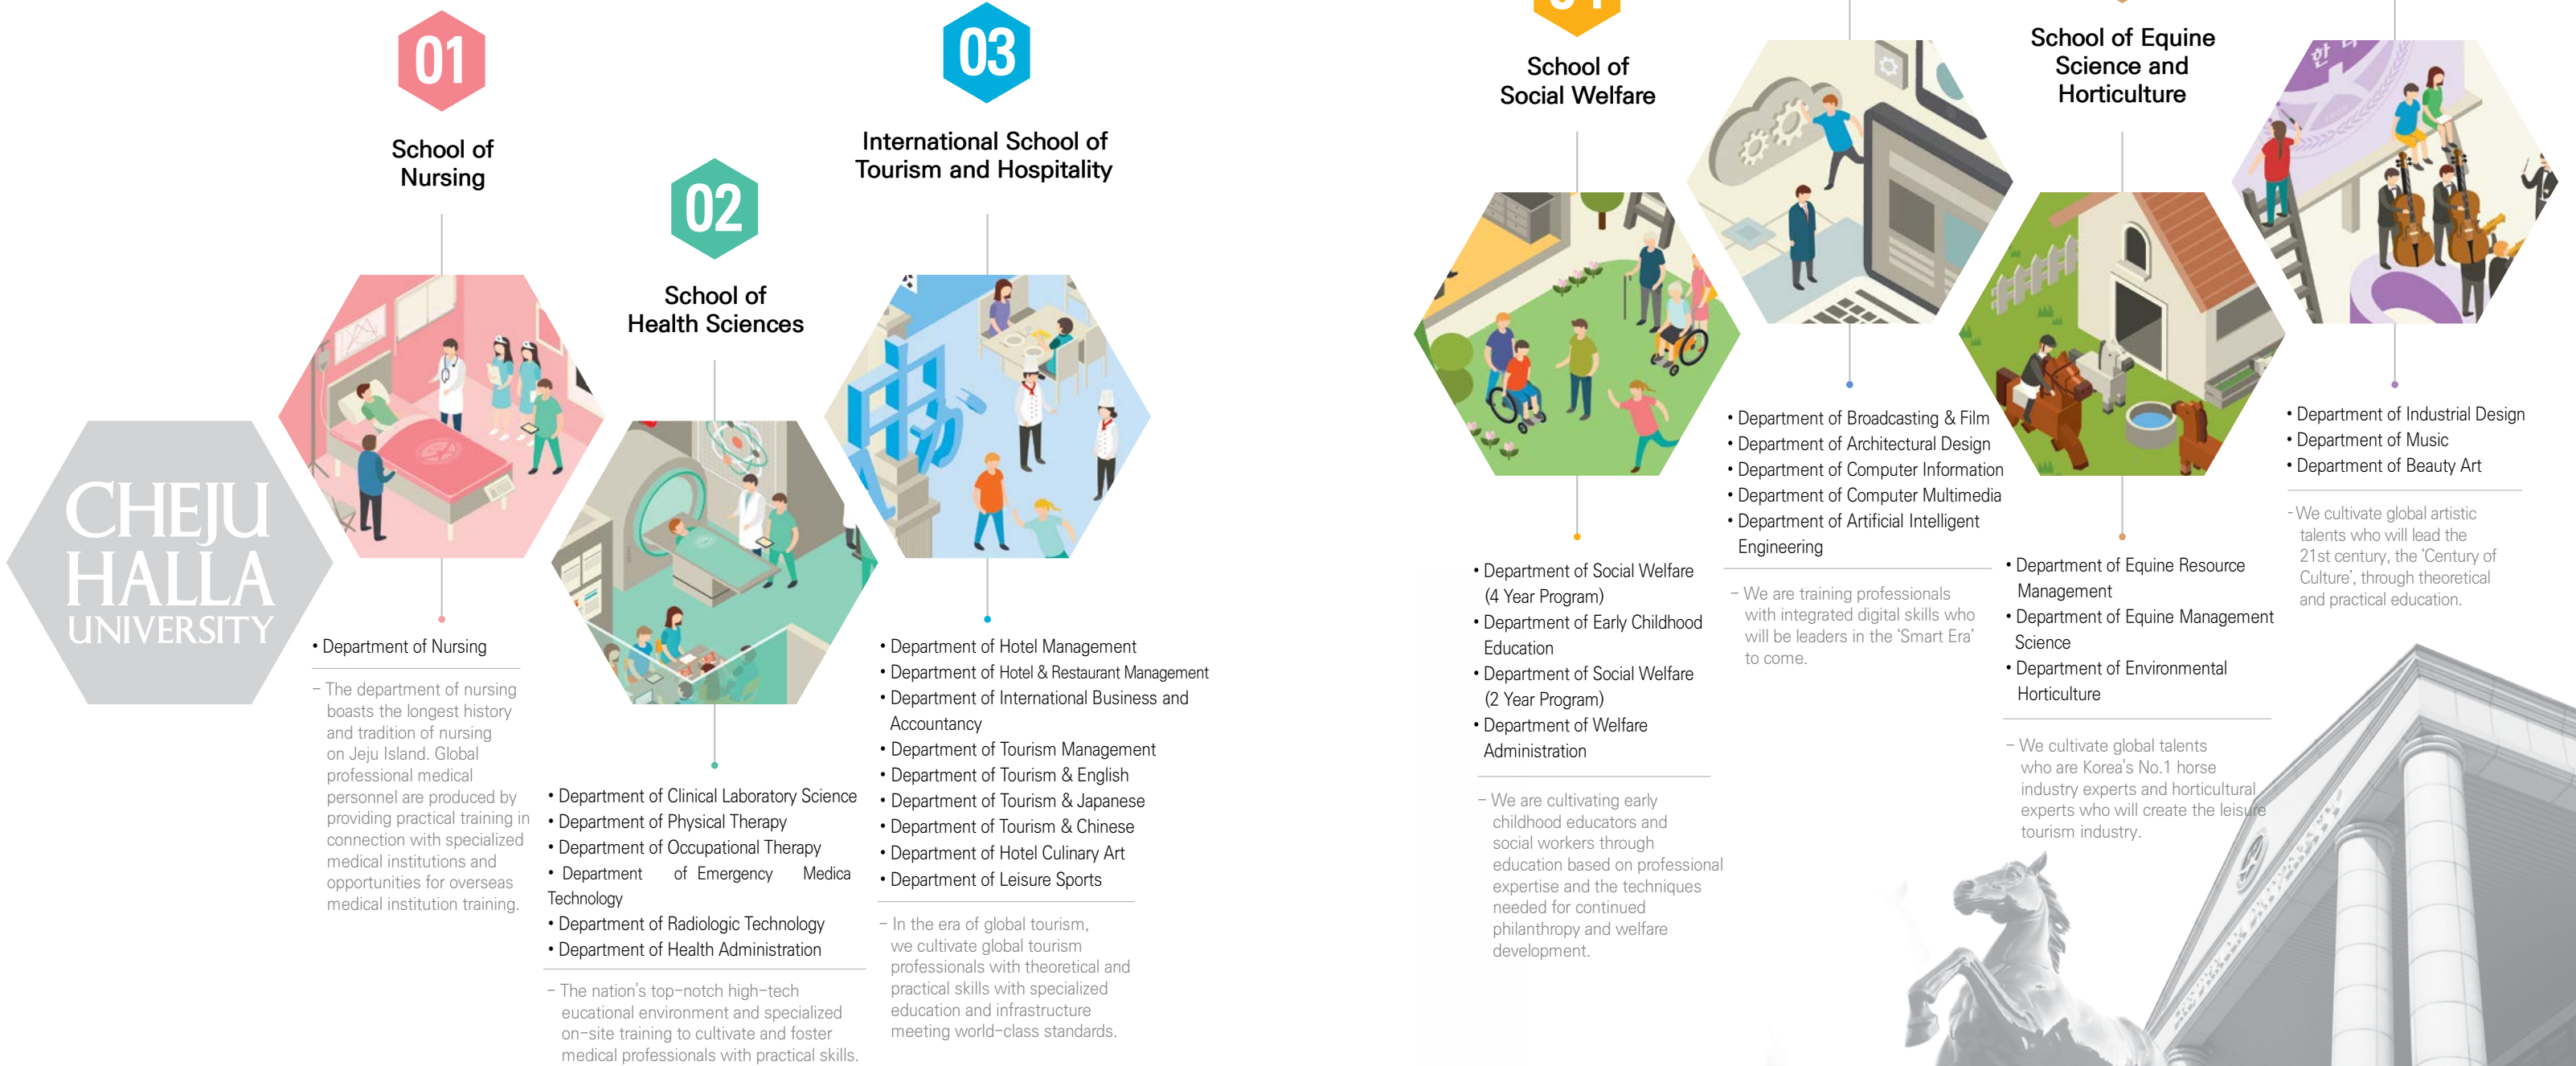

Each individual is assigned an advising professor to provide counseling on learning methods, life, and guidance and student counseling is part of the regular curriculum each semester. Students receive individual counseling at least twice a semester, and are given personalized evaluations.

High-Tech Multimedia Educational Environment

To help students with learning and to enhance their global competitiveness, our school is continually improving our infrastructure. We have a state-of-the-art campus wide computer network system, and offer student training with multimedia systems and high-tech equipment.

Cheju Halla University : World Class School

- Active Exchange Programs with Renowned Colleges and Universities in America, The UK, China, and other countries
- Top Overseas Employment Rate in the Nation, 2012-2014

Nurturing Professional Medical Personnel with Both Theoretical and Practical Skills

Creating a Bright Future and a Healthy Society

We are producing nursing professionals who can respond to the era of globalization through a full-bodied curriculum, and expanding opportunities to study abroad and find employment after graduation.

Our Differentiated Competitiveness

- 4 Year Bachelor's Degree Program
- First in Korea to Use PBL to Operate a Unique, Integrated Curriculum
- Educational Programs Operated in conjunction with the Halla-Newcastle PBL Education Research Center
- Jointly Operated Education and Training Programs with the Halla-Stony Brook Emergency Medicine Research Center
- Pleasant Study Environment and High-Tech Teaching and Training Facilities
- Talented Professors with Extensive Overseas Study and Work Experience in Their Fields
- Highest Graduate Employment Rate in the Country Every Year
- Highest Level of Success in the Country on the National Examination

Globally Competitive Professional Nursing Education

- International Nursing Class for Globalized Talent
- Student Exchanges for On-Site Training and Internship Programs at Stony Brook School of Nursing, U.S.A.
- Academic Exchanges with the University of Newcastle, Australia

Halla-Newcastle PBL (Problem Based Learning) Education Research Center

- Research into PBL Methods and Their Application
- PBL Teaching Method Education and Advisory Research Support for Professors at Cheju Halla University and other Korean Universities
- International Academic Conferences
- International Academic Journal (JPBL)

Department of Nursing

Contact us | 064-741-7659, 7610, 7441

Human Compassion and High-Tech Education

The Department of Nursing is the leading department of Cheju Halla University, and as the first nursing educational institute to be established in Jeju, the department continues to build on its 50-year history, implementing its vision of becoming a leading, internationally renowned nursing department. In 2001, a unique integrative program using the Problem Based Learning (PBL) method was introduced and operated. Our department provides an educational environment which meets the demands of domestic and international industries and produces globally competitive professional nurses.

Department of Radiologic Technology

Contact us | 064-741-1691

Enabling Excellence as a Radiologist Through a Systematic Practice Environment

Radiology is an essential element in the field of medicine for the improvement of national health and the promotion of public health in countries and societies in modern medicine today. Radiation not only greatly improves the accuracy of disease diagnosis in patients, but also contributes to the diagnosis and treatment of cancer, the number one cause of disease death. Our department nurtures medical experts with a philanthropic spirit who enhance the diagnostic value of radiographic images by efficiently managing radiation in hospitals and other medical institutions in the fields of radiology, nuclear medicine, and therapeutics. As one of the key medical sectors of the Fourth Industrial Revolution, obtaining a radiologist license will play an active role in an advanced medical environment to cultivate professional radiologists and develop practical conversational and informational skills that will lead the global medical market. Our department is one that can train radiologists with differentiated knowledge and skills to carry out radiological technology, and the university has focused on the specialized skills required in the medical field and operated experiments focused on creativity and applicability.

Department Strengths

- Clubs and Mentoring Systems, Systematic Study Group Management, Freshman OT and MTs, and Academic Festivals, Senior Day Meetings, Domestic and Foreign Industry Experts Invited
- Provides Opportunities to Improve Foreign Language Skills and for Advanced Clinical Field Training

Careers and Educational Opportunities

- Licenses
Radiographer, Radioisotope Handler, Non-Destructive Testing Engineer.
- Career Fields
General Hospitals and Hospitals, Clinics, Health Medical Research Institutes, Public Health Workers, Radiation Industry, Radiation Equipment Manufacturers, Overseas Radiation-related Fields (Imagine Medicine, Radiation Oncology, Nuclear Medicine, etc.)
- Options after Graduation
(With a Radiology License) Government Officials at National and Public Institutions such as General Hospitals, Radiology in Hospitals And (Clinics), Radiology and Oncology, Nuclear Medicine, The Ministry of Food and Drug Safety and Public Health Centers, Radiation-Related Officials, Companies Using Radiation Devices, Medical Devices related Companies, and Radiation Professions in Institutions and Overseas Employment in The United States, Canada, Australia and The Middle East

Department of Hotel & Restaurant Management

Contact us | 064-741-6765

Producing Professionals to Lead Jeju's Tourism Industry, Meeting the Needs of 10 million Tourists a Year

The Department of Restaurant Management, the only department on Jeju Island opened to train restaurant and hotel managers who will provide high value-added business administration, the backbone of the tourism industry. In order to cultivate a professional workforce with practical job skills, the department offers the most advanced on-site practical training with high-tech laboratory facilities and equipment, and provides students with the opportunity to train at a high-class hotel restaurant. The department also offers advanced degree programs in conjunction with some of the world's leading universities, as well as internship programs with multiple well-known domestic and foreign food service companies, including hotel restaurants. Department professors, combining their international perspectives and experience in the field, are striving to create Northeast Asia's finest on-campus hotel restaurant complete with a robust facility infrastructure.

Department Strengths

- IPP (Industry Professional Practical) System : IPP is an 'industry partnership long term onsite training system' that aims to produce creative professionals with practical job skills. Students spend between 4 and 6 months working at a company in the 4th year of their studies. This allows them to gain the knowledge and skills required to become a professional in the field, and greatly aids in their competitiveness in their future job search.
- Onsite Hotel Training Program : Students take such courses as Housekeeping Skills, Front Desk Skills and Guest Room Supervision, and have the opportunity to directly practice what they learn at CHU's very own training hotel. This allows them to gain firsthand experience in putting their knowledge into practice.
- Onsite Restaurant Training Program : Students get direct experience in recipe creation, greeting customers, cooking and customer service, thereby building the skills required by industry employers. Courses such as food service, beverage service, banquets and culinary arts are based around hands-on practice at CHU's restaurant and convention center.

Department of Social Welfare

Contact us | 064-741-7692

Producing Social Welfare and Childcare Workers Who Will Help to Bring About a Society Where All Can Live with Dignity

This department aims to cultivate social welfare and childcare professionals who can contribute to the development of society in response to the transformation into a knowledge-based society, the realization of productive welfare, and the transition to a lifelong learning society. The Department of Social Welfare trains social workers who learn the knowledge and skills necessary to fill a variety of welfare needs and will use those skills to 'improve quality of life'. The department also trains childcare professionals who love infants and toddlers and have practical knowledge. The 2+2 4 Year Bachelor's Degree Program reinforces on-the-job competency and provides opportunities to acquire advanced qualifications.

Curriculum | 2 years

Department Strengths

- Fostering Specialists in Social Welfare and Childcare Tailored to the Era of the 4th Industrial Revolution
- Training Creative and Practical Professionals to Realize a Human-Centered Technological Society
- On-Site Training to Improve Practical Skills
- Operating Curricula According to Major for Social Work, Youth Instruction / Childcare Teaching, and Childcare Teaching for Children with Disabilities
- Improving the Sense of Duty and Social Responsibility That Should Come with Working as a Social Worker, Childcare Teacher, or Youth Instructor
- Conducting Various Volunteer Activities in the Local Community through Major Club Activities

Careers and Educational Opportunities

- Certificates
Social Welfare Major : Social Worker Level 2, Youth Teacher Level 3, Childcare Major: Childcare Teacher Level 2, Childcare Teacher for Children With Disabilities.
※ in Addition, Civilian Certification Course Offered According to Student Demand
4 Year Bachelor's Degree Program : An Additional 2 Year Course by Which One May Obtain a Bachelor's Degree Upon Graduation
Associate Degree + Bachelor's Degree : Graduates of the 4 Year Department May Apply for the Social Worker Level 1 Certification Test
- Careers and Education Opportunities
Social Welfare Major : Welfare Facilities for the Elderly and Disabled, Child and Youth Welfare Facilities, Leisure and Family Welfare Facilities, Mental Health Welfare Facilities and Centers, Comprehensive Social Welfare Centers and Community Welfare Organizations, Medical Social Welfare Businesses
Childcare Major : National and Public Daycare Centers, Integrated Daycare Centers for the Disabled, Child Welfare Facilities (Nursery Centers), After-School Child Guidance Institutions, and School Caring Classes

- 1 (Common Liberal Arts and Majors) Understanding University Life (1) (2), University Seminar, Basic English Conversation, Sympathetic Communication Skills
Social Welfare Major: Introduction to Social Welfare, Human Behavior and Social Environment, Social Welfare Administration, Volunteerism, Social Welfare Policy, Social Welfare Practice, Social Welfare Research, Family Welfare, Youth Problems and Youth Protection, Youth Psychology and Counseling
Childcare Major: Introduction to Childcare, Introduction to Special Education, Infant and Toddler Development, Childcare Course, Guided Play, Music for Children, Special Child Behavior Guidance, Childcare Practicum, Child Rights and Welfare, Infant Teaching Methodology, Parent Education, Infant and Toddler Social Emotional Guidance, Infant Childcare Program Development and Evaluation

- 2 (Common Liberal Arts-Major) College Life and Future (1)(2)
Social Welfare Major: Social Welfare Practice Technology, Community Social Welfare, Elderly Welfare, School Social Welfare, Social Welfare Field Practice, Mental Health, Social Welfare Legislation and Practice, Welfare for the Disabled, Social Welfare and Cultural Diversity, Youth Activity, Youth Development System, Startup Practice
Childcare Major: Child Mathematics Guidance, Language Guidance, Child Safety Management, School Social Welfare, Child Observation and Behavior Research, Individualized Education Plan, Education for Children with Mental Disabilities, Education for Children with Emotional Disabilities, Language Development Disorder, Early Intervention for Infants with Developmental Delays, Integrated Education for Infants and Toddlers with Disabilities, Counseling for Special Children and Family Support

Department of Welfare Administration

Contact us | 064-741-7674

Fostering Welfare Experts and Office Management Experts Who Promote Improved Welfare with a Warm Heart

We cultivate public officials and professional human resources in welfare administration who have what it takes to meet the needs of the knowledge and information society. To this end, the focus is on cultivating public officials who are experts in the administrative practice of government agencies, training social workers for the realization of local social welfare, and training office management experts with practical qualifications and computer skills. After graduating from the Department of Welfare Administration, you can acquire a social worker level 2 certificate, and you can cultivate the ability to contribute to the improvement of welfare administration by educating students new management knowledge and techniques related to welfare administration. In addition, students can gain expertise in office management by acquiring various office management skills.

Department Strengths

- Acquisition of Social Worker Level 2 Certification
- Cultivating Welfare Experts through Welfare Information Exchange
- Practical-Focused Education Utilizing Field Experience in Addition to Theoretical Education
- Specialized Education (Certifications: Computer Accounting, Office Automation Industry Engineer, PCT (Computer Utilization Ability), Social Research Analyst, etc.)
- Special Lectures for Public Institutions and Public Officials (Social Welfare, General Administration, Education Administration, etc.)
- Cultivating Professionals Equipped with Administrative and Computer Know-How

Careers and Educational Opportunities

- Certificate
Social Worker Level 2, Word Processor, Computer Accounting Operator, PCT (Computer Utilization Capability), Office Automation Industry Engineer, Internet Information Searcher, ITQ(Information Technology Qualification) Administrative Manager, Social Research Analyst, Information Processing Technician, Policy Analysis Evaluator
- Career Fields
Public Organizations and Public Officials (General Administration, Education Administration, Social Welfare, etc.), Social Welfare-Related Institutions and Facilities, Clerical and Accounting Positions at Public Enterprises (Korea Communications, KEPCO, Korea Land and Housing Corporation, Tobacco & Ginseng Corporation, etc.)
Financial Institutions (Banks, Securities Companies, Nonghyup, Credit Union, KFCC, Mutual Credit Bank, etc.), Airlines (Korean Air, Asiana Airlines), Travel Agencies, Hotels, Clerical Positions at Broadcasting Companies (KBS, MBC, etc.)
Clerical Positions at Private Companies, Clerical and Accounting Positions at Law Offices, Tax Offices, and Accounting Firms
- Education Opportunities (Transfer to a 4 Year University)
- Special Transfer to Korea University Sejong Campus : College of Public Policy
- Special Transfer to Jeju National University : Transfer to the Department of Public Administration

Curriculum | 2 years

- 1 Understanding University Life (1)(2), Interpersonal Relations, Practical Chinese, Introduction to Public Administration, Introduction to Information Management, Introduction to Social Welfare, Family Welfare, Human Behavior and Social Environment, Financial Administration, Social Welfare Administration, Social Problems, Welfare for the Elderly, Social Welfare Practice, University Seminar
- 2 Personnel Administration, Social Welfare Legislation and Practice, Social Welfare Policy, Office Information Processing, Volunteerism, Social Welfare Practice Technology, Organization, Office Management, Youth Welfare, Social Welfare Data Analysis, Social Welfare Research, Social Welfare Field Practice, Accounting Principles, Program Development and Evaluation, Community Welfare, University Life and Future(1)(2)

05

School of Information Technology and Architecture

- Department of Broadcasting & Film
- Department of Artificial Intelligence Engineering
- Department of Architectural Design
- Department of Computer Information
- Department of Computer Multimedia

Cultivating Creative Integrated Technology Specialists Who Will Lead the Architectural Design Industry with Cutting-edge Information Technologies such as Artificial Intelligence, Big Data, and the 'Internet of Things' with Global Competitiveness for the Future!

The Differentiated Competitiveness of the Department of Information Technology and Architecture

- Nurturing Industry Customized Manpower with Many Companies
- Students may acquire 2 certifications per person such as Information Processing Industry Engineer, Information Communication Industry Engineer, Construction Industry Engineer, etc. through a unique recognition system.
- Operating On-Site Training Tailored to the Industry, and a Practice-Oriented "Capstone Design" Learning Method
- 4 Year Bachelor's Degrees Offered through Departments of Broadcasting, Film, and Information Technology and Intelligent Systems Engineering
- Reinforcement of Global Talent Training: Inviting Foreign Professors, Strengthening 'One Foreign Language per Student' Education
- Study Abroad and Training Opportunities at SUNY, University of Newcastle in Australia, Nankai University in China and Other Sister Universities
- Support for Employment at Overseas Companies

Specializing in Industry Fields That Drive the New Growth in IT Convergence Technology

- Specialized Education for New Technology Convergence in the Fields of Artificial Intelligence, Big Data, and the 'Internet of Things'
- Fostering Strategic Talents in the Fields of New Growth such as Artificial Intelligence, the 'Internet of Things', AR·VR, and Drones
- Fostering Creative Engineering Talents through the Engineering Technology Education Innovation Center Support Project
- Practical Experience in On-Campus Research Centers such as MCTRI, Jeju Artificial Intelligence Research Center, IMS, Jeju Cyber Security Research Institute, Engineering Technology Education Innovation Center, and the Broadcasting and Video Center
- Special transfer support for connected programs at Korea University

Department of Broadcasting & Film

Contact us | 064-741-7465

Realize Your Dreams of Becoming a Broadcasting and Film Expert

Professional training related to broadcasting and video culture is provided in order to cultivate high-quality human resources who will be active in the fields of broadcasting, film, and culture, which are rapidly emerging in the digital video age of the 21st century. The broadcasting and video fields are divided into the specializations of video directing and production, video editing, cinematography, broadcasting engineering, broadcasting entertainment, events, film directing, independent production, and special computer effects (VFX). Also, specialized education for special video content such as drone photography and underwater photography is provided.

Department Strengths

- 2010 Specialization of Underwater 3D Stereoscopic Images
- 2012 Daum Track, Nexon Track
- 2013 Daejin Animation Track
- Selected as a Regionally Specialized Business
- 2014 Industry-Academia Joint Animation Education Center Opened
- 2015 Broadcasting Film Department Reorganization

Careers and Educational Opportunities

- Career Fields
 - Broadcasting Field (KBS, MBC, SBS, KCTV, Traffic Broadcasting, Radio Broadcasting Station, etc.) Cameraman, Audio Engineer, Operation Supervisor (MD), Video Editor, System Operation Engineer, Lighting Supervisor, Broadcasting CG Engineer, Cable Broadcasting Equipment Technician, Radio Technologist, Stage Director (FD), Broadcast Reporter, TV Radio Composer, Video Journalist (VJ), Independent Creator
 - Video / Multimedia Field (Public Offices and Broadcasting Rooms at Various Facilities, Advertisement Planning Company, Production, IT Company, etc.) Public Officials in Charge of Broadcasting Facilities, Video Production Producer, Film Director, Internet Broadcasting Director, Music Video Director, Audiovisual Education Instructor, Broadcasting Equipment Technician, Broadcasting Equipment Technician, Documentary Director, Video Content Developer, 3D Video Production, Game Content Planning and Production
 - Animation and Cultural Arts Field (Animation, Cultural Facilities, Festivals, Performance Planning Companies, Event Companies, Theme Parks, etc.) 2D/3D Animator, Webtoon Writer, Character Design, Animation Directing and Planning, Cartoon Illustration, Illustrator, Recreational Leader, Cultural Arts Event Planner, Event Producer, Event Emcee Event Planner, Theater Manager, Concert Sound Director, Performance Lighting Director, Stage Director Special Effects Director, Culture and Arts Official, Cultural Center Instructor, Model, Entertainment

Curriculum | 4 years

- 1 Communication, Photography, Film Production, Film History, Introduction to Broadcasting, Broadcasting Academy, UCC Production, Photography Practicum, Visual Aesthetics, Digital Image Editing, New Media Contents Utilization
- 2 Video Content Planning, Drone Photography, YouTube Content Planning, Photography Practical Technique, Journalism, YouTube Content Production, Advertising Content Production, News and Production, TV Production Practicum, Documentary Production, Short Film Production (1)
- 3 Short Film Production (1), Scenario, Basic Acting, Special Video Editing, Special Shooting, Creative Photography Technique, Entertainment Acting, Technique for Video Professional Certification, Short Film Production (2), Motion Graphics, Lighting and Stage
- 4 Understanding Start-Ups, Capstone Design (1), Professional Qualification for Performing Arts, Art Photography Technique (1), Field Practice, Art Photography Technique (2), Capstone Design (2)

Department of Artificial Intelligence Engineering

Contact us | 064-741-7589

We Are Cultivating Next-Generation Core Experts in Artificial Intelligence, the 'Internet of Things', Big Data, Blockchain, Information Security, and Intelligent Robots Required by the 4th Industrial Revolution!

We need experts with the know-how to lead in this new industry. We are providing a cutting edge engineering education to help students to develop their knowledge. This will be ready for the next generation of technology. Third and fourth year students will participate in project based lessons with support from onsite researchers in local industries. Our students will be ready to enter industries that rely on artificial intelligence, the internet of things, big data, block chain, robotics in Jeju Island.

Department Strengths

- Top Experienced Professors in Artificial Intelligence, Big Data, Internet of Things, Blockchain, Information Security, and Robotics (8 Faculty Members with Various Research Experiences Including the United States, Germany, and Sweden)
- Leading Curriculum to Foster Future Integrated Technology Experts by Operating Four Major Learning Tracks
- In-Depth Major Education and Student Research Activities through Support for Collaborative Research Courses with the Future Culture Technology Research Center
- Operating State-Linked Technical Education and Advanced Technology Tailored to Jeju's Future Strategic Industries Human Resource Development Program related to Smart Tourism, a Strategic Industry of Jeju Special Self-Governing Province, Including AI (National Strategic Technology), Blockchain, Drones, Robots, Smart Farm, Smart City, etc.
- Implementing Learning 5.0 Education Program for an Innovative Education System Tailored to 4th Industrial Technologies Focusing on Open Discussion-Based Classes Operating Differentiated Engineering Programs with Machine Learning Server, a Cloud Server, Intelligent Guide Robot, Autonomous Vehicle and Lot Control Kit, Drone Training Vehicle, etc.

Careers and Educational Opportunities

- Careers
 - Samsung Electronics and Affiliates, LG Electronics and Affiliates, Automobile Manufacturers such as Hyundai Motor Company, Communication Companies such as KT, SKT, Future Robot, Robot Makers Such as Yujin Robot, Artificial Intelligence Service Development Companies such as Daum Kakao, Naver, Amazon, Google, Government Officials in Charge of Computerization at Government Offices, Military and Law Enforcement Cyber Security Personnel and Internet Security Companies, Internet of Things (IoT) Developer, Programming Developer
- Admission to Domestic and Foreign Graduate Schools
 - Advancement to Top-Class Domestic and Overseas Graduate Schools (USA, Germany, Sweden, Australia, etc.)

Curriculum | 4 years

- 1 Presentation / Discussion English, Introduction to Information Protection, Introduction to Automatic Control System, Engineering Mathematics, Computer Concepts and Practicum, Technical English Reading, Probability, Digital Signal Processing and Practicum, Understanding of Programming, Operating System, Digital Systems and Experiments, Sensor Introduction and Practicum, Introduction to Network Security, Introduction to Service Computing, Python Programming, Introduction to Optimization
- 2 Technical English Listening, Matrix and Linear Transformation, Object Oriented Programming, Signals and Systems, Video Signal Processing and Practice, Science and Technology English Writing, Engineering Physics and Lab, Introduction to Artificial Intelligence, Artificial Neural Network, Internet of Things (1)(2), Java Programming, Robot Kinematics and Mechanics, Introduction to Statistical-Based Pattern Recognition, Human-Artificial Intelligence Interaction, Audiovisual Cognitive Model
- 3 Advanced English Presentation and Discussion, Machine Learning (1)(2), Introduction to Computer Vision, Introduction to Start-Ups, Advanced Writing English, Introduction to Big Data Machine Learning, Introduction to Cloud Computing, Introduction to Blockchain, Introduction to Natural Language Processing, Mobile Robot Programming (1)(2), Introduction to Autonomous Driving Technology, Cyber Security, Emotional Artificial Intelligence
- 4 Intelligent Expert System Capstone (1)(2), Job and Self-Development (1)(2), Intelligent Robot Programming, Neurobiological Signal Processing, Data Mining, Recommendation System Structure, Intelligent System Capstone (1)(2)

Department of Architectural Design

Contact us | 064-741-7483

Through Our Unique Curriculum and System, We Train Architectural Engineering Students in Line with the Times

The technological transformation and architectural culture of the rapidly changing architectural society demands specialization, advancement, and diversification of engineers. Therefore, the Department of Architectural Design aims to cultivate professional architects by acquiring international sense, scientific knowledge, and engineering skills necessary for architectural engineering students based on the NCS program. Architectural Design is a field that can be used in any form according to students' instinctive talents based on artistic sense and engineering skills for creation of spaces that are people-centered and people-oriented. These skills can be put to use in any fields related to construction design, interior design, architecture, construction equipment, construction.

Department Strengths

- Running NCS Program
- Practicum-Based Cad and Computer Graphic Education
- Expanding Opportunities to Participate in Learning through Various Contests (Architectural Exhibition, Cad Contest, etc.)
- Enhancing of Educational Effect Using Abundant Audio-Visual Materials
- Strengthening Industry Education through Industry-Academia Cooperation (On-Site Training, Industry Field Tour, etc.)
- Expanding Opportunities for Indirect Experience through Special Lectures by Expert Guest Speakers
- 4 Year Bachelor's Degree Available through a 3+1 Program

Careers and Educational Opportunities

- Certification
Architectural Engineer, Construction Industry Engineer, Interior Architect, Interior Construction Industry Engineer, Construction Engineer, Architectural Structural Engineer, Architect
- Careers
Architectural Design Office, Construction Company, Interior Architecture Office, Construction Equipment Company, Construction Material Company, Landscaping Company, Construction Supervision Company, General Business, Civil Servants in the Field of Architectural Administration, Computer Graphics Company, Transfer to ROK Army Academy 3, University Transfer and Study Abroad, Apartment and Building Superintendent

Curriculum | 3 years

- 1 Introduction to Architecture, Information Ability, Architectural CAD, Architectural Planning, Structural Mechanics, Architecture, Architectural Construction, Interior Design, Design Studio (1), Computer Graphics, Model Production
- 2 BIM Basics, BIM Interior Design, Design Studio (2), Steel Structure, Reinforced Concrete Structure, Building Equipment, Architect, Architectural Drafting, Interior Architecture, Space Design, Furniture Design
- 3 Capstone Design, Computerized Structural Analysis, Building Maintenance and Safety Diagnosis, BIM Practice, Lighting Design, Design Studio (3), Building Code, Architectural Estimate, Structural Design Practicum, Modern Architecture

Department of Computer Information

Contact us | 064-741-7404, 7564

Specialization in Software Programming

As a specialized department in Software Programming, it provides specialized education related to the operation of information system in the cloud computing environment equipped with cutting-edge multimedia experiment and practice equipment. Based on the understanding of the computer system, we provide specialized education on step-by-step learning in web user interface (Web UI) design and database operation techniques in the fields of open platform-mounted programming, big data operation generated on mobile and Internet, and related network services, computer security, Internet of Things, artificial intelligence, block chain, web server operation, and application development of games, web, and APP. In addition, it is cultivating global talents in the Bachelor's degree program in computer science and a joint degree program with overseas universities. Each student will acquire two certificates during their course of study in our department. In particular, we aim to get a 100% hire rate at leading domestic and foreign companies such as Daum Kakao Inc. and Nexon Networks Inc. through industry-academia cooperation.

Department Strengths

- Designated as Specialized Departments in Software Programming and Training of Computer Application Specialists with Computer Skills
- Six Core Competencies (1) Software Programming, (2) Computer and Network Security, (3) 4th Industrial Technology: Artificial Intelligence / Blockchain / Big Data/ Internet of Things, (4) Mobile / Game Software, (5) Web Design / Animation / Computer Graphics, (6) Specialized Training for Web / App Content Production
- Specialized Training in Computer Information Technology, Obtaining Two Major-Related Certificates per Person, and On Site Practical Training for Industrial Companies
- Industry-Academia Cooperation to Secure Jobs at Leading Companies such as Daum Kakao Inc. and Nexon Networks Inc.
- Students May Acquire a 4 Year Computer Engineering Bachelor's Degree While Working
- 2+2 4 Year Bachelor's Degree Possible through Agreement with Hefei University in China

Careers and Educational Opportunities

- Certificates
Information Processing Industry Engineer, Level 1and 2 Computer Certification, Network manager (CCNA, CCNP), Game Graphics Expert, Web Designer, Internet Information Search Company, Computer Graphics Operation Engineer, Webmaster, Linux Master, E-Commerce Manager, Computer Graphics Engineer, Internationally Recognized MOS, MCAD, MCDBA, MFD
- Careers
Software Developer (Web/App/Mobile/Web Designer), Computer Programmer, Computer and Network Security Experts, Internet Shopping Mall Developer, Daum Kakao Inc. and Nexon Networks Inc., 2D/3D Computer Graphics, Big Data and Internet of Things, A.I., Jeju Police Agency, Practical Computer Teacher at Each Elementary, Middle and High school, KT Corporation, SK Telecom, KEPCO, Samsung and Other Large Companies, Nonghyup Financial Institutions, Hospitals, Computer Facilities at Companies, Airlines, Hotels, Computer Facilities at Public Institutions, Web Hosting Company, Web Operation / Development Companies, etc.
- Educational Opportunities
Transfer to 4 Year Universities such as Jeju National University, Korea University, Providing Class for Transfer to Overseas Universities (Foreign Language Education for Students Preparing to Study Abroad at Overseas Sister Universities or Elsewhere)

Curriculum | 2 Years

- 1 University Seminar, Understanding College Life (1)(2), Information Ability, General English, Computer Use, Computer Graphics, Web Design, Basic Programming, Operating System, Introduction to Information and Communication, Web Programming, Development Practicum, Computer Utilization Practice, Digital Logic Circuit, Electronic Calculator Structure, Media Production Practice, Database, System Analysis and Design
- 2 University Life and Future (1)(2), Blockchain, Object Oriented Programming, Internet Game Practicum, Web Content Creation, Embedded Programming, Introduction to Artificial Intelligence, Start-Up Basics, Summer Semester On-Site Training, Startup Practicum, Mobile Programming, Big Data Practice, Capstone Design, Internet of Things, Information Security Practicum

Department of Computer Multimedia

Contact us | 064-741-7669, 7688

Work as a Creative Working-Level Expert Who Will Lead the Multimedia Contents Industry!

In order to achieve the department's vision of fostering capacity-based multimedia professionals leading the implementation of a human-centered technological society, the department aims to cultivate multimedia content production experts with superior problem-solving skills through the operation of competency-based courses, including multimedia design suitable for user interface and user experience, smart app design and programming using computers, laptops and smart devices, and integrated multimedia content production based on innovative ideas and technology based on the 4th industrial revolution.

Department Strengths

- Nurturing Practical Experts in Multimedia Content Integration of the Entire Process of Multimedia Content Planning, Design, and Production
- Cultivating Practical Expertise through Major-Related Internship Programs and Capstone Design Projects Using State Of-The-Art Educational Facilities and Equipment
- Operating a Curriculum for Enhancing Major Competencies in the Content Production Field and Enhancing Core Vocational Competencies
- Supporting Student Club Activities to Improve Cooperative Development Ability Based on Discovery of Creative IT Integration Items and Technology Development Activity Support
- Diversification of Employment Fields Including Nexon Inc. and DK Service Inc. by Securing Professional Skills for Various Digital Content Production Technologies

Careers and Educational Opportunities

- Nationally Recognized Certificates
Multimedia Contents Production Expert, Computer Graphic Operator, Game Graphic Expert, Game Planning Expert, Gameplay Programming Expert, Linux Master, ITQ, GTQ
- Private Certificates
Mobile Programming Ability Test (TOMPA), Internationally Recognized MOS, ICDL
- Careers
Digital Content Planning and Development Company, Virtual Reality and Augmented Reality Production Company, Web Designer, Smart App Production Company, Internet Shopping Mall Start-Up, 2D and 3D Graphic Development, Animation Production Company, Venture Company, Digital Content Production Company, IT Fields at Government and General Public Offices etc.
- Educational Opportunities
 - Department of Computer Engineering, Cheju Halla University (4 Year Bachelor's Degree Program)
 - Department of Computer Engineering, Hefei University, China
 - Korea University Sejong Campus
 - Transfer to 4 Year Programs at Jeju National University or Other Domestic Universities Possible

Curriculum | 2 years

1 Understanding College Life, University Seminar, General Chinese, Interpersonal Skills, Computer Use, Python Programming, UI / UX Design Sign, Presentation, Multimedia Graphics, Animation, Game Development Practicum, Media Video Editing, Illustration, Linux Practice, Understanding Social Media

2 University Life and Future, Venture Startup Theory, IT Start-Up Practicum, HTML5&CSS3, Game Content Creation, iPhone Programming, Java Programming, Data Visualization, Virtual Reality Practicum, 3D Printing Content Production, Android Programming, Augmented Reality Practicum, 4th Industrial Revolution Technology Project, Capstone Design

06

School of Equine Science and Horticulture

- Department of Equine Resources Management
- Department of Equine Management Science
- Department of Enviromental Horticulture

Korea's No. 1 Equine Industry Training Institution!
We Train the Nation's Top Equine Industry Experts!
Horticultural Experts Who use Jeju's Natural Plant
Resources to Create a New Healing Tourism Industry

Differentiated Competitiveness of the School of Equine and Horticultural Science

- The only 4 Year Equine Science Degree Program in the Country
- Comprehensive Education in the Equine Industry Covering Areas such as Horse Breeding, Training, Riding, Racing, Riding for Rehabilitation, and Horse Shoe Maintenance
- Cultivating Field-Oriented Human Resources by Allowing Students to Participate in Field Training at Breeding Ranches, Training Ranches, Horseback Riding and Racecourses on Jeju Island during Their 4 Years of Study.
- Operating Jeju's Own Specialized Horticultural Curriculum Tailored to the Needs of the 4th Industry

Specialized Education in the Field of Equine Industry, a New Growth Engine of the Country

- Emphasizing the Equine Industry as a New Leisure Industry due to the Increase in National Income
- Establishing a New Paradigm for the Livestock and Leisure Industries in Korea According to the 2011 Equine Industry Promotion Act
- Promoting the Government's Mid- to Long-Term Plan for the Development of the Equine Industry
- Designated and Supported by the Government as a Training Institution for Experts in the Equine Industry
- Cultivating Jeju Environmental Horticultural Experts Using Forests, Trees, and Wildflowers Native to Jeju Island
- Nurturing Horticultural Experts that Combine Jeju's Own Eco-Healing Tourism and ICT.
- Florist, Landscaper (Garden Designer), Greenhouse Farming Engineer, Ecological Restoration Technician, etc.

Department of Equine Resource Management

Contact us | 064-741-7533

Become a Global Equine Industry Expert by Learning from Jeju's Robust Equine Industry

The Department of Equine Resource Management has secured the best faculty in Korea to train professional human resources in the equine industry, including horseback riding, horse racing and horse riding for rehabilitation. In our department, the equine industry, a high-value-added 6th industry considered as a new growth engine, is integrated to provide the best quality on-the-job training in Korea, covering horse production development, health management, training, and tourism.

Department Strengths

- 2017~2020-Operated as a Designated Test Site for the 'Ministry of Agriculture, Food and Rural Affairs National Equine Certification Test'
- 2017-Selected by the Korea Racing Authority as a 'Horse Taming Technology Consignment Agency'
- 2017-Designated as an Educational Institution Entrusted with Fostering Experts in the Equine Industry by Jeju Special Self-Governing Province
- 2014-Designated as a 'Horse Industry Expert Training Institution' by the Ministry of Agriculture, Food and Rural Affairs

Careers and Educational Opportunities

- Certifications
 - National Certification (Ministry of Agriculture and Forestry): Horse trainer, Rehabilitation Equestrian Instructor, Farrier, Industrial Livestock Technician
 - National Certification (Ministry of Culture and Sports): Life Sports Instructor, Youth Sports Instructor, Sports Instructor for the Disabled, Sports Instructor for Senior Citizens, Professional Sports Instructor
- Careers
 - Public Officials: Korea Racing Authority, Livestock Promotion Agency, National Institute of Animal Science, etc.
 - Unions and Associations: Livestock Cooperative, NongHyup, Racetrack Assistants Association, Racehorse Producers Association, etc.
 - Stables and Ranches: Stables and Ranches at Large Public and Private Corporations
 - Overseas Employment: Australia, New Zealand, Japan, etc. (Horse Training Centers, Riding Schools, and Breeding Ranches)
 - Educational Institutions: Domestic and Overseas Graduate Schools / University Professor or High School Teacher through Degree Acquisition
 - Other: Feed Company, Private Ranch, Animal Breeder, Artificial Insemination Center

Curriculum | 4 years

- 1 Hippology, Horse Anatomy and Physiology, Basic Horsemanship, Basic Horse Training, Horse Dressage and Equipment Management, Horse Related Common Sense and Law, Life Sports Education
- 2 Livestock Feeding Management, Horse Disease Management, Livestock Reproduction Physiology, Horse Dressage, Racehorse Training, Fodder Crops and Grassland, Horse Industry Practicum, Basic Biology, English for the Horse Industry
- 3 Horse Breeding Management, Farrier Studies, Livestock Start-Up and Business Management, Horse Racing, Riding Training, First Aid
- 4 Livestock Breeding, Breeder Horse Management, Horse Behavioral Psychology, Horse Exercise Management

Department of Equine Management Science

Contact us | 064-741-7533

Uncover a New Area of the Leisure Industry, Discover the Freedom and Pleasure of Horseback Riding

As the average yearly salary in Korea tops 30,000 USD, the demand for horseback riding and horse racing is increasing along with the increasing desire for various leisure activities.

Accordingly, in order to cultivate human resources necessary for the development and development of the horse-related leisure industry, the Department of Equine Science conducts customized practical education required by industrial sites along with various theoretical education, and focuses on on-site education in connection with industries.

In addition, by providing a variety of educational environments throughout the equine industry through a 4 year curriculum, we cultivate competent equine industry experts who can advance not only to various domestic horse-related industries but also overseas.

Department Strengths

- 2011-Designated and Supported as an Equine Industry Specialized College by Jeju Special Self-Governing Province
- Designated and Supported by the Korean Ministry of Agriculture, Food and Rural Affairs in 2014 to Foster Professional Equine Industry Personnel for 7 Consecutive Years
- Operating an Industry-Academia Cooperation Joint Education Program in Parallel With School Classes
- Establishment of the Best Practice Facilities in Korea, such as a Training Ranch for the School of Equine and Horticultural Science, an Indoor Stable and an Outdoor Training Ground
- Operating Internships and Overseas Training Programs in Connection with Overseas Horse Industry Talent Training Organizations
- 2017-Designated as a Test Venue for the 'National Equine Industry Related Certification Exam' in Jeju for 4 Consecutive Years
- 2018-Designated as a Cooperative Healing and Riding Facility by the Korean Racing Authority for 3 Consecutive Years

Careers and Educational Opportunities

- Certifications
 - Horse Trainer (Minister of Agriculture, Food and Rural Affairs), Rehabilitation Equestrian Instructor (Minister of Agriculture, Food and Rural Affairs), Farrier (Minister of Agriculture, Food and Rural Affairs), Life Sports Horseback Riding Level 2 Instructor (Minister of Culture, Sports and Tourism), Competition Instructor Level 2 (Minister of Culture, Sports and Tourism), Sports Instructor for the Disabled
- Careers
 - Korean Racing Authority, Race Tracks, Stables Nationwide, Horse Riding Courses for Rehabilitation, Horse Breeding Ranches, Horse Ranches, Horse Training Sites, Horse Recreation Centers, Korea Horseback Riding Association, Farrier Workshop, Horse-Related High Schools and Universities, Horse-Related Public Officials, Horse Distribution Business, Interns in Countries Advanced in the Equine Industry, Overseas Employment, etc.

Curriculum | 4 years

- 1 Hippology, Basic Horsemanship, Horse Related Common Sense and Law, Livestock Feeding Management, Horse Dressage and Equipment Management, Life Sports Education, Basic Horse Training, University Seminar
- 2 Horse Disease Management, Horse Dressage, Obstacle Jumping, Basic Horseback Riding for Rehabilitation, Horse Dressage Training, Introduction to Rehabilitation, Racehorse Training
- 3 First Aid, Livestock Start-Up and Business Management, Rehabilitation Horseback Riding Application, Education, Riding Training, Equestrian Instruction, Problem Solving Ability, Horse Dressage Instruction
- 4 Improvement of Horse-Riding Teaching Method, Horse Behavioral Psychology, Mare Management, Fodder Crops and Grassland, Livestock Breeding, Livestock Breeding Physiology, Advanced Riding Instruction

Department of Environmental Horticulture

Contact us | 064-741-7533

Using Jeju’s Natural Plant Resources to Nurture Horticultural Experts Who Will Create the Healing Tourism Industry!

In the era of the 4th industrial revolution, we will cultivate experts in agriculture that combine agriculture and ICT technologies to secure future competitiveness in agriculture. It aims to cultivate professional human resources who can understand the overall operation systems of farms and interpret the relationship between crops and environmental factors by providing a field trip-centered curriculum focusing on practical projects. Also, we aim to foster creative human resources who will lead the 6th industry that turns plant resources into products and tourism resources.

Department Strengths

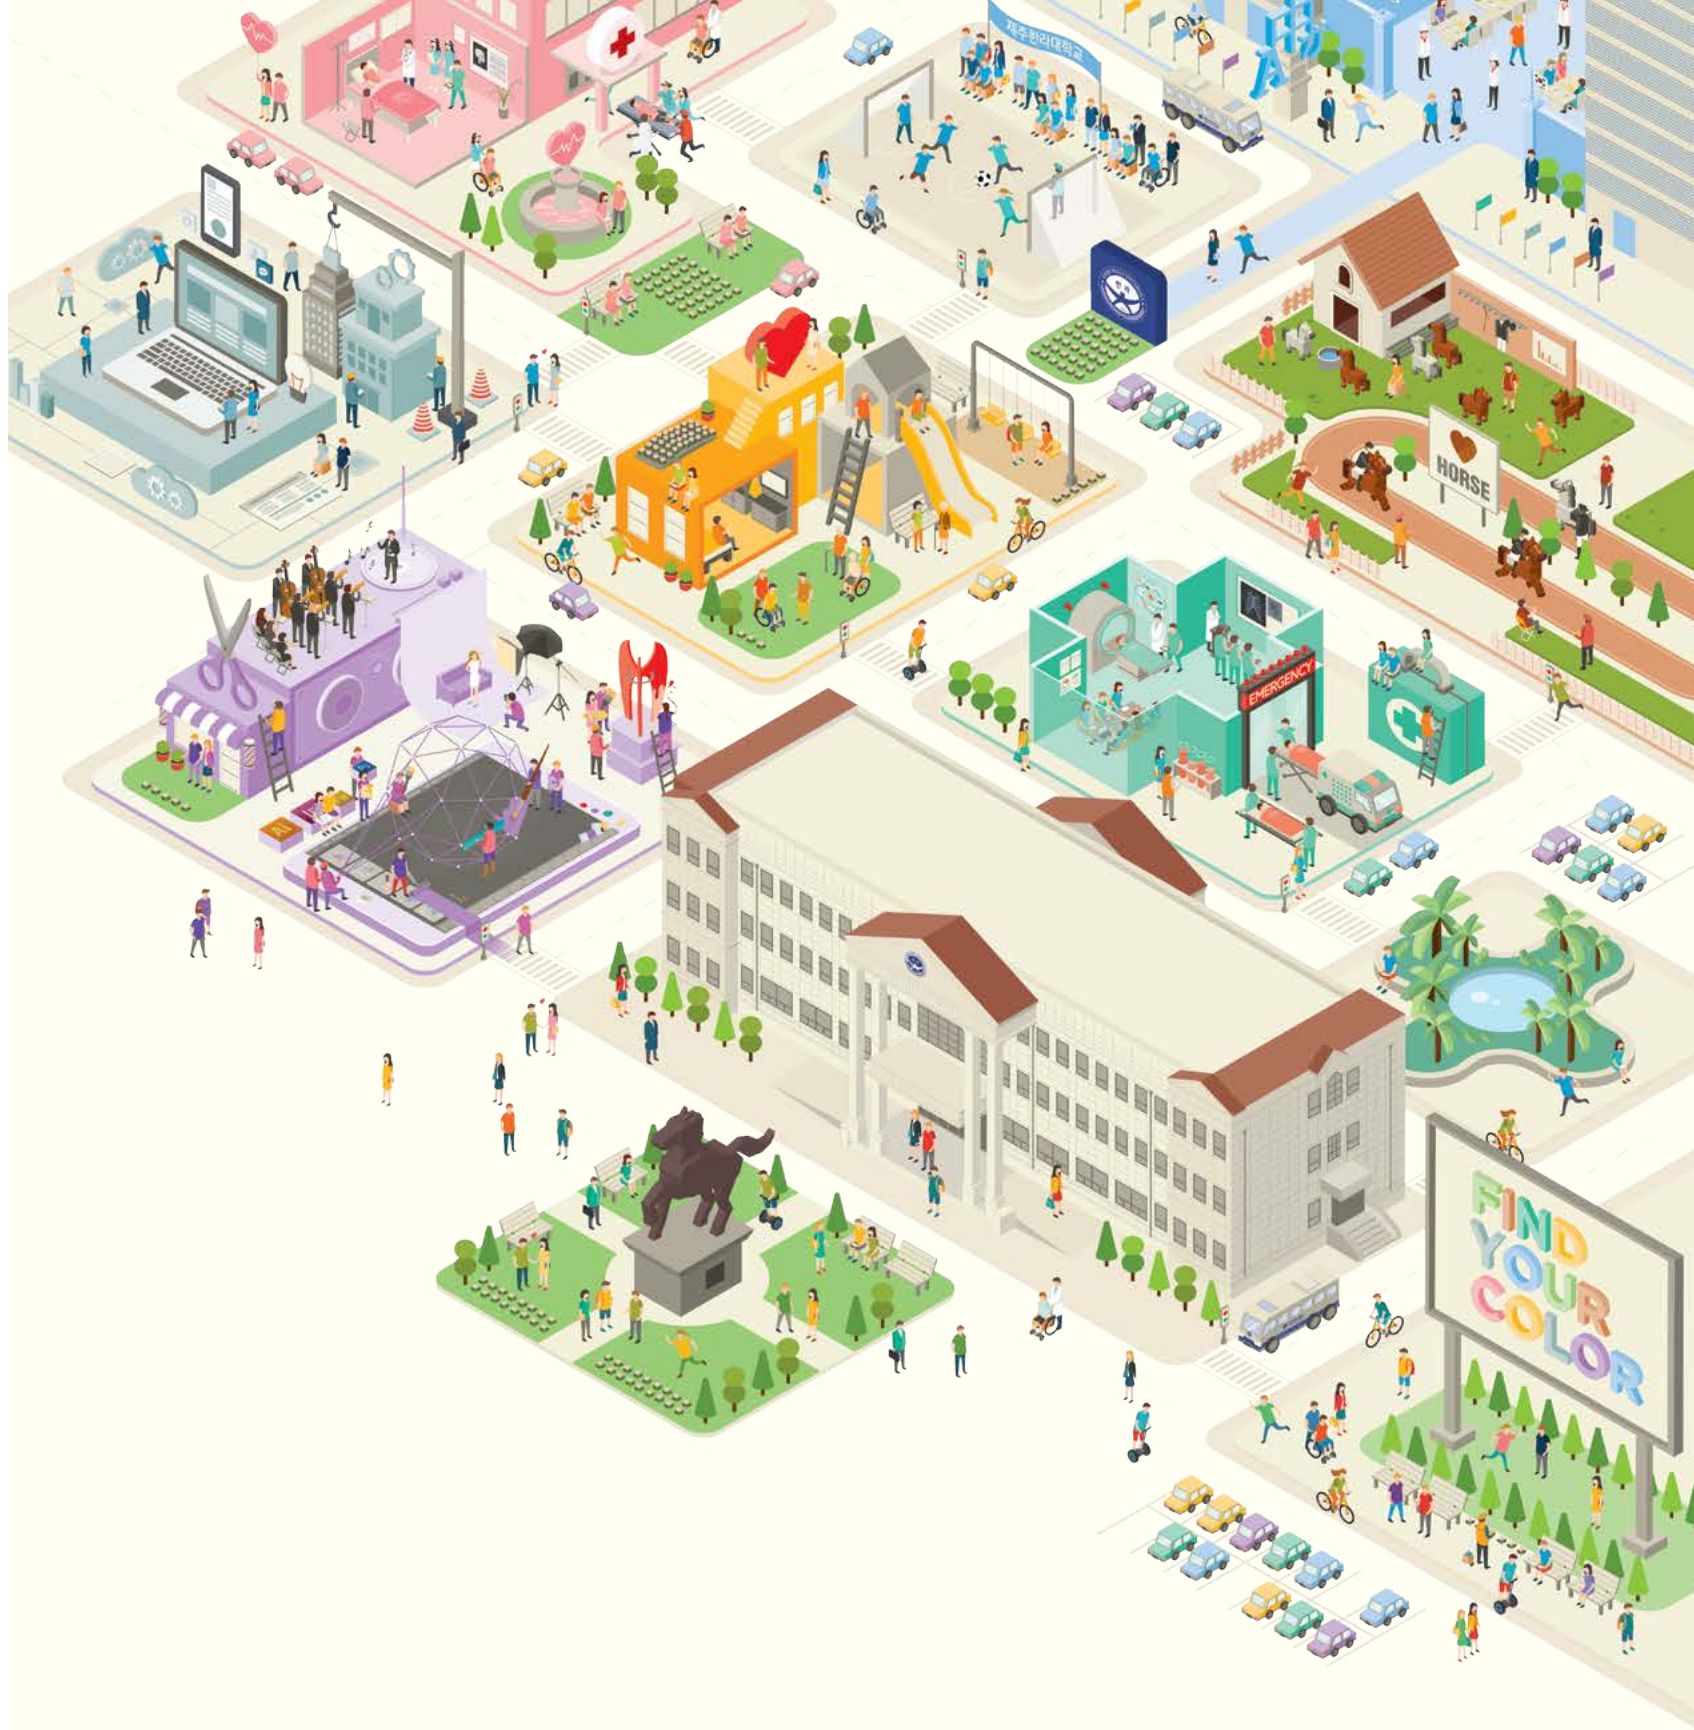

- On-Site Learning-Oriented Lectures where Both Theory and Practice Are Emphasized by Securing a Training Ground and Research Facilities within the Training Ground
- Education Focused on Cultivating the Ability to Perform Field-Oriented Practical Projects by Reflecting the Needs and Trends of Local Industries
- Providing Educational and Training Opportunities to Develop Local Human Resources Centered on the Agricultural Industry
- Providing Education to Improve Jeju Agricultural Industry Technology and Strengthen Competitiveness through Revitalization of Local Farmers' Participation in Education

Careers and Educational Opportunities

- Certifications
Seed Technician, Gardening Technician, Organic Farming Technician, Facility Gardening Technician, Urban Farming Manager, Seed Industry Technician, Plant Preservation Technician, Horticultural Psychological Counselor, Horticultural Therapist, Forest Commentator
- Careers
Agricultural Consultant (Smart Farm), Agricultural Product Quality Manager, Florist, Green Landscape Designer

Curriculum | 2 years

1	Understanding College Life (1)(2), University Seminar, Basic English Conversation, Interpersonal Skills, Botany, Landscape Design, Plug Seedling Management, Horticulture, Fertilization Management, Greenhouse Gardening (1), Greenhouse Crop Disease Management (1), Urban Gardening (1), Greenhouse Vegetable Cultivation Management, Lawn Management, Smart Farm Practice (1)
2	University Life and Future (1)(2), Greenhouse Gardening, Citrus Gardening, Facility Flower Cultivation Management, Plant Resource Utilization, Greenhouse Crop Disease Management (2), Smart Farm Practicum (2), Greenhouse Gardening (3), Fruit Tree Cultivation, Urban Gardening (2), Agriculture Business Management, Environmental Ecology and Restoration, Smart Farm Practicum (3)

07

School of Arts

- Department of Industrial Design
- Department of Music
- Department of Beauty Art

Fostering ICT Based ART & DESIGN Creative Talent Differentiated Competitiveness of the Department of Arts

Competitive Edge

- Running an On-Site Training-Based Art Curriculum with a Faculty Composed of Experts in the Field of Art
- Cultivating Global Artistic Talent through the Design, Music and Beauty Education System in an Advanced Educational Environment. (High-Tech Center, Halla Art Hall, Kumho Future Hall, etc.)
- Achieving a High Rate of Employment after Graduation by Fostering 'Multitalented Designers', 'Musicians Who Understand Artistry and Popular Trends', and 'Beauty Experts with Global Skills', All Based on Creative Thinking

– **Department of Industrial Design** | Our goal is to foster innovative integrated design service talents who are focused on the various forms that modern lifestyles take. To this end, visual design, product design, image design and animation, fashion graphic design, 3D design, and UX design are combined to operate as a new type of design curriculum. In this process, research and development of theoretical, cultural, and formative values in various design fields, and various design projects focusing on marketing and production are carried out to cultivate creative problem-solving skills and design practical skills.

– **Department of Music** | • Selected as the Best Department in the Music Field of National Colleges • Selected as a Practical Teacher Training Department (Practical Music Teaching License)

– **Department of Practical Teacher Training** | • Holds the Music Concert 'Halla Musician's Night' • Active Major Performance Activities such as the 'Freshman Concert' and 'Professor Concert' • 'Mozart Competition Korea Headquarters 1st Competition' Piano Department Prize • 'Asia International Piano Academy Festival Prize' • 'Baek Nan-A Song Festival' Grand Prize • 'Tamna Song Festival' Grand Prize and First Prize • Excellent Win Record, such as the Grand Prize and the First Prize at the Halla Song Festival • Advanced to the Finals of the 1st and 2nd Korea Practical Music Festival • Selected for the 'Youth Microphone Season 2' on 'the Day of Culture' Hosted by the Cultural Prosperity Committee and the Ministry of Culture, Sports and Tourism • 'Incheon Metallica Tribute 3rd Performance Festival' • 'Jeju Cherry Blossom Festival' • Appearance in Famous Festivals and Many Performances, Including Appearances at the 'Tamna Cultural Festival'

– **Department of Beauty Art** | • Division of Job-Oriented Majors (Skin or Hair in the First Semester of the First Year) • Long-Term Field Practice (2nd Semester 2nd Year) • Each Major Operating at the Halla Beauty Shop • Entrepreneurship & Major Clubs • Beauty Volunteer Activities • Participated in the Nationwide 'Beauty Skills Competition' and Won a Number of Prizes for Participation • Beautician License • Beautician Certificate (General, Skin, Nail, Makeup) • Barber License • Private Certificate (Color Consulting Certificate, (Hair and Scalp Care Certificate) • Thai Massage Certificate • Aromatherapy Certificate • Foot Care Certification • Beauty Meridian Certificate), etc.

Global ART & DESIGN Talent Training Program

- Reflecting the Latest International Trends and Field-Oriented Major Theory and Practical Skills
- Fostering Global Artistic Talents Strong in Employment through overseas exchange programs
- Fostering 'Global Artistic Talents' by Strengthening Overseas Employment Capabilities
- Achieved Many Overseas Jobs in Japan and Australia
- High-Level Overseas Employment Program Operation and Employment Support

Department of Industrial Design

Grow as a Visual Communicator who is Ready for the Global Stage!

Our goal is to foster innovative integrated design service talents who are focused on the various forms that modern lifestyles take. To this end, visual design, product design, image design and animation, fashion graphic design, 3D design, and UX design are combined to operate as a new type of design curriculum. In this process, research and development of theoretical, cultural, and formative values in various design fields, and various design projects focusing on marketing and production are carried out to cultivate creative problem-solving skills and design practical skills

Department Strengths

- Visual Design
Graphic Design, Illustration, Picture Book Design, Fashion Graphic/fashion Illustration, Webtoon Design, Emoticon Design, Kelography, VMD, Package Design, Advertising Design
- Product Design
Electric Vehicle and Future Mobility Design, 3D Printing/Digital 3D Modeling, ICT Home Appliance, Living Product (Stationery/Furniture) Design, Manufacturing of Materials (Aluminum/Wood/Leather/Fabric) Utilizing Maker Space (Studio)
- Digital Content Design
VR/AR, Animation, Motion Graphics, One-Person Media Video Creation, New Media Design, UX/UI Design

Careers and Educational Opportunities

- Certificates
Product Design Industry Engineer, Visual Design Industry Engineer, Colorist Industry Engineer, Packaging Industry Engineer, Multimedia Content Production Specialist, Culture and Art Educator, Stylist, Colorist, Computer Graphics Operator, Textile Design Engineer, 3D Modeling, etc.
- Careers
 - Professional Designer in the Field of New Media such as Graphic Design, Advertisement Design, Editorial Design, Identity Design, Package Design, Illustration, Stationery Design, Product Design, UI/UX Design, Environmental Design, Space Design, Game Graphic, 2D/3D Graphic Design, Animation, Image Design, 3D Printing, Web Design, Motion Graphics, etc.
 - Fashion Graphics, Fashion Products, Living Goods, Interior Goods, Goods, MD, etc.
 - Design Institutes of Large Corporations, Advertising Agencies, Design Development Facilities Small and Medium-Sized Enterprises, Industrial Design Companies, and Government (Investment) Organizations such as Korea Institute of Design Promotion
 - Design Journalism, Press and Publishing Fields Dealing with Criticism, Freelance
 - Admission to Domestic and Overseas Graduate Schools, Design Startups

Curriculum | 4 years

1	Color Design, University Seminar, Drawing (1), Three-Dimensional Sculpture, Basic Design, Digital Design (1), History of Design, Drawing (2), Digital Design (2), Idea and Expression, Sketch & Rendering
2	Communication Skills, Graphic Design (1), Editorial Design (1), Illustration, Design History, Sketch & Rendering, 3D Design (2), Graphic Design (2), Editorial Design (2), Design Marketing, Environmental Design
3	3D Design (1), Advertising Design, Branding, Product Design (1), Video Animation (1), Environmental Design, Product Design (2), Video Animation (2), UI/UX, Design Startup Practice, Service Design
4	Product Design Studio, Video Design Studio, Package Design Studio, Communication Design Studio, Capstone Design (1), Capstone Design (2), Design Studio (1), Design Studio (2), Design Studio (3), Design Studio (4)

Department of Music

Contact us | 064-741-7660

Become a Musician and Learn to Communicate Your Feelings with Freedom!

Our goal is to cultivate competent musical talents contributing to self-realization through music and the development of the global culture and arts industry by developing and nurturing individual musical talents and creative competencies in the 'Era of the Cultural Industry'. In particular, the classical music major and the popular music major are operated together to achieve a high level of development as a musician through various musical experiences, and a differentiated competitiveness as a music professional through acquiring a practical teacher certificate. In addition, we are improving the musical skills of music students as much as possible through personalized 1:1 major practical classes led by faculty members with rich music backgrounds and a balanced educational program of music theory, performance and practicum.

Program Strengths

- Selected As the Best Department in the Music Field of National Colleges
- Acquisition of Practical Teacher (Music) Certification
- Associate of Arts in Music
- Opening of Various Majors such as Classical Music and Popular Music (All Popular Music such as K-Pop, Jazz, etc.)
- Pleasant Music Education Facility Located in Halla Art Hall (Halla Art Hall, Computer Music Studio, Ensemble Room, Digital Music Room, Personal Practice Room, etc.)
- Cultivating Competitive Professional Musicians through Field-Oriented Curriculum and Differentiated Teachin and Learning Methods
- Cultivating Professional Musicians Who are Strong in Employment through Obtaining Competitive Certification
- 1:1 Major Practical Class by Excellent Faculty and Students by Major

Careers and Educational Opportunities

- Certificate
Practical Teacher Certification
- Employment field
After-School Practical Instructor, After-School Instructor, Early Childhood Music Education Instructor, Music Academy Management and Full-Time Instructor, Education Experts such as Cultural Centers and Lifelong Education Instructors, Vocal Trainers, Chorus Directors, Vocal Guides, Performance Agencies, Broadcasting Stations, Studios, Management, Performance Groups, Event Company Operations, Professional Bands and Vocalists, Professional Performers such as Jazz Musicians, Orchestra, Indoor Orchestra, Choir, Military Band, Professional Performers Such as Conductor, Accompanist, and Member of the Church Choir

Curriculum | 2 years

1	Practical Major (1)(2), Folk Art Practical (1)(2) Samulnori, Information Ability, Chorus and Ensemble (1)(2), Ensemble (1)(2), Classical Piano, Introduction to Music, Understanding of Sound, Writing Method, History of Music (1)(2), History of Popular Music (1)(2), Sight Singing and Listening (1)(2), Keyboard Harmony, Stage Performance (1), Harmonics (1), University Seminars, Understanding College Life (1)(2), Liberal Arts English, Composition and Arrangement (1)
2	Major Practical Skills (3)(4), Chorus and Ensemble (3)(4), Ensemble (3), Stage Performance (2), Harmonics (2), Arrangement, Music Pedagogy, Music Therapy, Introduction to Korean Music, Practical Accompaniment, Graduation Work Workshop, Introduction to Pedagogy, Practical Education Methodology, Score Production, Entrepreneurship and Art Management (1)(2), Career and Professional Ethics (1)(2)

Department of Beauty Art

Contact us | 064-741-6701, 7482

Creating Beauty, Sublimated into Art from Head to Toe

We aim to cultivate global beauty professionals who can actively respond to the internationalization era by cultivating a broad understanding and knowledge of the beauty field in the rapidly changing modern society. To this end, in-depth education is provided in the major fields of skin and beauty esthetics.

Overseas Employment | Since 2009, for the first time in the province, beauty-related jobs in Japan and Australia have been carried out. The number of applicants for overseas employment has increased every year thanks to the university's active support for foreign language intensive education, scholarships, and visa applications. In 2019, this number rose to a total of 109 students, the highest number among domestic university beauty programs.

Department Strengths

- In-Depth Education for Separate Majors in Hair and Skin Care (Common Classes for Makeup and Nail Art)
- Abundant Scholarship Benefits and a High Employment Rate
- Improvement of Practical Skills in Major through Various Departmental Events such as Operating a Beauty Shop, Beauty Volunteer Work, Seminars to which Expert Speakers are Invited, and Special Lectures on Employment.
- Systematic Practice-Oriented Major Education
- Participated in and Won National Beauty Contests
- Japan, Australia, China, USA, etc. Overseas Training and Employment in Beauty Industry
- Cultivating Creative Talents through Capstone Design and Start-Up Courses

Careers and Educational Opportunities

- Hair Beauty Major
Hair Designer, Hair and Scalp Manager, Hair Colorist, Hair Shop Start-Up, Hair Shop Manager, Beauty Product Company and Equipment Company, Instructor at Domestic and Overseas Beauty Education Institutions, Employment and Start-Up of Overseas Hair Salons, etc.
- Skin Beauty Major
Skin Manager, Spa Therapist, Medical Skin Care Expert, Aroma Therapist, Sports Masseuse, Hospital-Affiliated Skin Care Room such as at Dermatological Clinics, Hotel and Resort Spa, Skin Beauty Salon and Day Spa Entrepreneurship, Cosmetics Companies, Instructors at Domestic and Overseas Skin Beauty Education Institutions, Employment in Skin Care Shop
- Others
Makeup Artist, Coordinator, Image Consultant, Broadcasting Station Makeup Artist, Makeup Cosmetics Company, Duty Free Shop, Transfer to 4-Year University, University Professor, Teacher at Beauty High School, Beauty Vocational Training Teacher, etc.

Curriculum | 2 Years

Hair Beauty Major

Basic Hair Perm, Hairdressing, Hair Shampoo, Hair Dryer, Men's Hair Cut, Beauty Video Practice, Basic Hair Cut, Basic Hair Color, Public Hygiene and Safety, Scalp & Hair Care, Hair Beauty Start-Up Basics, Hair Beauty Volunteer Service (1)(2), Applied Hair Perm, Hair-Up Style, Applied Hair Cut, Hair Capstone Design, Applied Hair Color, Hair Salon Service Practice, Hair Beauty Start-Up Practice, Hair Beauty Practice, Hair Creative Cut Practice, Artistic Hair Perm Practice, Hair Color Art Practice, Hair Seminar, Hair Creation Seminar, Field Practice

Skin Beauty Major

Face Care 1, Whole Body Care 1, Skin Cosmetology, Skin Beauty Start-Up 1, Machine Care Practicum, Whole Body Care 2, Skin Analysis, Fragrance Therapy, Face Care 2, Skin Care Volunteer Service 1, Permanent Makeup, Skin Science, Special Care Capstone Design, Scalp Care and Hair Removal, Medical Skin Care, Spa Therapy Practice, Meridian Oriental Medicine, Skin Beauty Start-Up 2, Beauty Anatomy, Skin Beauty Volunteer Service 2, Foot Reflexology, Beauty Seminar, Well-Being Therapy Practicum, Skin Clinical Practice, Public Health and Hygiene Regulations, Obesity Management Practice, Field Practice

Common

Nail Art (Nail Care), Beauty Makeup (Basic Makeup), University Seminar, Liberal Arts Chinese, Understanding of University Life (1)(2), University Life and Future (1)(2), Communication Skills

SUPPORTING FACILITIES

Halla Student Dormitory

Halla Convention Center

University Newspaper and Educational Broadcasting Station

Library

Halla Art Hall

Confucius Institute

Library

The library is a pivotal institution for achieving the purpose of university education and research, and is also an open classroom. It is contributing to academic research by collecting, organizing, analyzing, preserving, and accumulating books and other materials for research activities of professors and students, providing them as various research materials, and sharing information materials with other libraries. This library has a plan to build a digital library including ontology-based bibliographic data support. The facilities are divided into a general reading room, an open reading room, an open book shelf and an electronic information room, and we are doing our best to ensure that there is no inconvenience in the use and use of data. In recent years, to improve the satisfaction of users, the environment has been improved by operating a mobile app library, building an unmanned book return machine, replacing the electronic information room PC, replacing the seating system, and ionizer.

Information Computer Center

As a core department for information data management of universities, it supports future cutting-edge core technologies related to IT, BT, CT and manages data for smooth communication with each university organization. The Information Computer Center plays a pivotal role in collecting and analyzing books and other materials and information for research activities of professors and students as an important information storage for academic research and education and an essential facility for education and learning.

Reserve Company

The reserve company is here to alleviate the burden of organizing current students and reserve troops currently in college into regional reserve troops, improve training operation and management, and organize and operate college reserve troops to facilitate the convenience of reserve troops within the university.

Halla Art Hall

Cheju Halla Art Hall is the highest level of culture and art space among universities nationwide! It is equipped with the latest sound and lighting facilities and is a large-scale performance hall capable of handling various cultural and artistic performances. It is fully equipped as a large-scale performance hall required by the Performance Act, with things such as air conditioning facilities, air purification facilities, and sound-absorbing facilities, so you can enjoy the highest level of cultural and artistic performances in a pleasant environment. In addition, it is a university facility where culture and arts can live and breathe.

University Newspaper

The newspaper is a university magazine that delivers news from our students and faculty, alumni, high schools nationwide, university media, and related organizations. Currently, the university newspaper, 'Halla Chun-Chu', which is published with 4 or 8 pages per month, publishes about 2,000 copies each print and conveys the contents of the university's internal and external activities to the outside, and is a channel of continuous interest between the university, students, and society. The educational broadcasting station was launched to realize the founding ideology of Cheju Halla University and to promote a healthy university culture. Since the start of regular broadcasting, the educational broadcasting station has played a role in creating a bright and cheerful campus atmosphere through announcements within the university, prompt event reporting, and information on cultural information.

Halla Dormitory

Halla Dormitory, which opened in March 2002, is a new concept dormitory with the best facilities and can accommodate a total of 670 people (408 males and 262 females). Each student room has a high-speed internet network, so there is no shortage in accommodating the new generation's desire for information. Also, it is equipped with air conditioning and heating facilities, so that students can concentrate on their studies in a comfortable environment. The Halla Dormitory will provide a comfortable living situation for all of our students with various convenient facilities such as a common cooking hall (separated into male and female), a lounge, and a shower facility.

Office of International Affairs

The Office of International Affairs is a specialized institution made to support global minds and systems, strengthen university competitiveness by operating various programs, and cultivate excellent experts in the international arena of the 21st century.

– Designated as a University that Hosts Students with Government Scholarships (2015 to Present)

– Education Internationalization and Foreign Student Attraction Competency Certified by the Ministry of Education (2014 ~ present)

• Language Education Center

The Language Education Center opened in response to the promotion of the Jeju Free International City. It enhances internationalization capabilities by providing intensive language education for current students and the general public through the latest language education facilities and high-quality, diverse language programs.

–Running Ministry of Justice Immigrant Social Integration and Early Adaptation

Program (Jan, 2020 ~ Present)

• Confucius Institute

The Confucius Institute of Cheju Halla University was approved by the Chinese government in 2009 and was the 13th in Korea and the first Confucius Institute to open in Jeju. At the time of its opening, Li Chang-Chun, the 5th-ranked member of the Central Political Bureau, attended the opening ceremony. It is operating the best Chinese language education program in cooperation with Nankai University, a prestigious university in China. It was awarded as a 'World Advanced Leadership Organization' in 2013 and selected as an 'Excellent Confucius Institute' in December 2015.

• International Education Center

The International Education Center helps foreign students studying at Cheju Halla University with academic affairs and listens to and resolves difficulties related to life so that foreign students can enjoy a smooth study abroad life.

• Global Industry-Academia Cooperation Center

By providing job training and language training through overseas employment programs supported by Cheju Halla University and the Human Resources Development Service of Korea, we are supporting young people who wish to work abroad and those who are expecting to graduate to develop overseas employment capabilities.

• International Development Cooperation Center

The International Development Cooperation Center was formed at Cheju Halla University to reinforce the university's public development assistance capabilities through smooth execution of Korea's international development public-private cooperation projects.

Lifelong Education Center

The university's human and material resources are utilized to provide educational opportunities to the general public and professionals. While practicing the philosophy of lifelong education that students must learn for a lifetime, we are raising the cultural awareness and intellectual level of adults in the community. By helping to improve the quality of real life at home and at work, we strive to make the most of adult learners' abilities for the development of local communities and the nation. To this end, our university cooperates with Jeju Special Self-Governing Province and develops and operates educational programs for mutual growth of local governments, universities, and local communities. The contents of education consist of the contents necessary for real life, employment, and entrepreneurship, such as obtaining credits, obtaining a certificate, preparing for a business start-up, and health education. Students who have completed the education are provided with high-quality lifelong learning opportunities to maintain the level of a semi-professional. We are opening the university's door to adult learners, providing an opportunity to acquire a degree.

Disabled Student Support Center

This student center aims to actively support students with disabilities to make sure that they can study with ease through improvement of the educational environment and support for learning, and to maximize the effect of inclusive education with students. It is also contributing to the development of the welfare for the disabled in the local community by consulting and supporting the disabled with any inconveniences and difficulties to improve the learning and university life conditions in the school. The Disabled Student Support Center is currently on the 4th floor of the Kumho Future Hall, and the assistive technology equipment in the Disabled Student Support Center includes electric wheelchairs, manual wheelchairs, wheelchair-height desks, crutches, reading magnifiers for the visually impaired, recording devices, and a white cane, a sound amplifying device for the hearing impaired, and a mobile electric bed and a laptop for learning.

Infirmary

The infirmary is equipped with equipment for general health check-ups such as blood pressure measurement and body fat test, a treatment room for simple medication and trauma treatment, and a space for students and faculty who need a break to relax.

Halla Convention Center

The Halla Convention Center is equipped with a multipurpose room and various auxiliary facilities to hold various meetings and events. It is playing a pivotal role in nurturing world-class hotel and tourism talent through practical classes and field training, as well as convenient spaces for students.

ACADEMY-INDUSTRY COOPERATION ORGANIZATION

Human Resources Development Institute

- Vocational Training Center
Provides opportunities for capacity development to employees working at SMEs through the training of local and industry-specific manpower. It provides stable manpower supply and productivity improvement to business owners, and utilizes excellent training facilities and equipment to train on-site manpower required by SMEs through customized education. It provides education to improve the job skills of workers.
- Joint training center
The joint training center is equipped with a training system that teaches in-demand, job-specific skills. By educating professional manpower through practical training, the quality of employment is improved, the competitiveness of learning workers is maximized, and field-oriented manpower required by the industry is produced. To this end, it aims to improve educational conditions and learning quality and strengthen field-oriented education through the development of customized curriculum with companies and improvement of learning methods.
- Employment and Startup Support Center
It provides career guidance for students, supports personal competency development, provides employment information, and links with recruiting industries. It collects employment information, operates an employment information network, and develops and operates various employment support programs. It develops and manages programs related to strengthening links with external related organizations and industries and developing human resources.

Halla-Newcastle PBL Education Research Institute

Halla-Newcastle PBL Education Research Institute was established in January 2002 with the goal of 'cultivating professionals with practical skills and knowledge in the field' under the vision of the university as a "Central University in Northeast Asia". The research institute supports the development of PBL textbooks for the development and spread of PBL as a way to cultivate creative talents in the 4th industrial era. In addition, various academic, educational and research activities are held, such as hosting summer/ winter workshops for domestic professors, holding an international PBL academic symposium, and publishing the Journal of Problem-Based Learning.

BI Center

The BI Center is connected with university specialization in the 3D Integrated Technology Institute, Engineering Technology Education Innovation Center, Information Technology Education Research Institute, Design Center, Food Art Center, and Jeju Local Food Research Institute, as well as nursing, health, home, social practice and information and communication fields within the university. Thus, we will support venture startups based on BT and IT, and foster technology-intensive small and medium-sized enterprises through practical industry-academia cooperation.

Instructional Media Development Center

This center aims to support the development, production, and operation of educational media and online contents to improve the quality of education and improve the excellence of teaching and learning. To this end, it supports the development and production of educational media (e-learning contents, e-Books, etc.), holds special lectures on the development and production of e-learning educational media, establishes and promotes content development policies using OCW and MOOC to activate flip-learning, and e-learning. It supports these learning education program operations and system operations.

Culture and Tourism Education Research Institute

It establishes policies and academic theories so that the field of culture and tourism can develop in a balanced way based on productive rationality through grasping the current status of all fields of cultural tourism inside and outside of Jeju Special Self-Governing Province and researching and solving problems. It was established in 1991 for the purpose of discovering, preserving, organizing, researching, and promoting the use of tourism resources in Jeju-do folk culture.

MCTRI

The Center for Future Culture Technology (MCTRI) has established a multidisciplinary convergence technology research system that can create social, economic, and educational value by gathering excellent research groups within the school, and it plays a role as a global cultural technology hub for practical and commercialization of research results.

- Jeju Artificial Intelligence Research Center
Jeju Institute of Artificial Intelligence (CAII) aims to develop innovative source technologies related to artificial intelligence in preparation for the advent of a revolutionary technological society, and to research its multi-industry applied technologies. It has a special purpose for R&D and consultation of customized artificial intelligence technologies for the realization of smart cities and smart tourism, and it helps the development and distribution of educational programs to cultivate human resources professionals.
- LIMS (Laboratory of Intelligent Man/Machine System)
LIMS (Laboratory of IMS), which aims to implement Intelligent Man/Machine Systems (IMS), conducts research to realize human artificial intelligence, and conducts research through securing excellent research personnel. By participating in research based on neural networks showing recent successful results, we create excellent research results and aim to be the best in the field of applied research based on 2D-3D image research. In the school, as a leading research institute related to artificial intelligence, it cooperates with other research institutes and supports research technology.
- Engineering Technology Education Innovation Center
The Engineering Technology Education Innovation Center supports capstone design (engineering comprehensive design education program) for engineering departments, opens related courses, and develops enterprise-linked education and experience programs to improve the quality of engineering education programs. It aims to cultivate global engineering talents and strengthen the competitiveness of local industries.
- Broadcasting Video Center
In accordance with the role and importance of the visual culture industry in modern society, we aim to possess the infrastructure of the visual cultural contents field and cultivate creative broadcasting contents experts by activating the cultural contents of the visual center and converting its quality. It conducts research support for the government, government, organizations, or industries, and conducts research and education on technology development for new growth engines such as research and information collection and new technology development for each field of the information industry. It will contribute the the local community as well as the nation.
- KADI (Korean Art & Design Institute)
KADI is an art and design research institute based on design infrastructure and research. Facilitating international exchanges with domestic and foreign related schools, organizations, and associations, leading conferences and campaigns through exchanges with renowned designers at home and abroad, and hosting and participating in events such as domestic and overseas exhibitions. It aims to promote the popularization and specialization of art and design through the expansion of the base of design, improvement of professionalism, and expansion.
- Convergence Media Design Center
It was established to lead the design field by creating a design research and development environment that mainly deals with virtual experiences that integrate future design fields such as VR, AR, and MR. Based on research on development of VR, AR design, 3D, and video design including visual event content and media facade (projection mapping, media wall, etc.) content, we intend to contribute to the vitalization of local community video design business.
- Maker Space Center
The Makerspace Center establishes a 'creative activity platform based on creative ideas', and continuously conducts research on production methods and improvement of the user environment for creating global-level product results.

Marine Leisure Sports Center

As a license testing center and educational institution designated by the Maritime Police Agency, it carries out tasks to train marine leisure manpower through boat and yacht license acquisition education and water safety education.

Medical Welfare Education Research Institute

The Institute for Medical Welfare Education aims to contribute to the country and society by actively volunteering to increase the capacity of the local community through medical health and welfare education. In order to actively cope with the changing health and medical environment, it is striving to reinforce its core competencies in the fields of health, nursing, and welfare, and to play a leading role in the characterization and competitiveness of universities.

Free International City Center

It aims to improve the knowledge of Free International City or related academics and cultures and their application, and further contribute to academic exchange in related fields, development of Jeju Free International City, and international publicity.

Halla • Stony Brook Emergency Medical Education Center

In line with the launch of the Free International City and Jeju Special Self-Governing Province, an academic exchange cooperation agreement was signed with the State University of New York (Stony Brook) in the United States for further vitalization of international exchange and practical international education. The Emergency Medical Education Center was opened. Halla-Stony Brook Emergency Medical Training Center is the largest simulation center in Korea and has played a leading role in domestic simulation education. As a specialized cardiac rescue) training site, it produces nursing health workers with international qualifications. In addition, it is operating First Airway LLC's Difficult Airway Provider for emergency medical professionals in connection with New York State University program for the first time in Korea.

Food Art Center

The Food Art Center was established to enhance the food culture of Jeju Special Self-Governing Province. It aims to nurture food culture leaders who can lead the food culture in Jeju by operating differentiated lectures and contents in professionally developed and organized educational programs from a leading position.

- Jeju Local Food Research Institute
The Jeju Local Food Research Institute aims to lead the dietary life pattern of modern people who are becoming more sophisticated and diversified in the 21st century. Competition for food is getting sharper due to low-cost imported food ingredients and processed imported foods coming from abroad, including China. To establish a position for international food development using local foods, analysis of components of functional foods, and research on physiologically active substances, and to scientifically, modernize, and internationalize traditional Jeju foods such as knowledge dissemination and information exchange on local foods. It was established to conduct research projects.

Halla • Nankai University Korean Language and Culture Research Center

The Center for Korean Language and Culture Studies at Halla-Nankai University was established jointly by our university and Nankai University in China in August 2011 to further expand the field of development of Chinese language and culture education and international exchange cooperation.

Equine Industrial Education Research Institute

The Equine Industry Education Research Institute specializes in tourism in Jeju Special Self-Governing Province by cultivating essential manpower in the industrial field, such as horse riding and horse racing skills and business management, to share knowledge and information necessary for the development of the horse industry, as well as for industrial workers. It is an industry that aims to contribute to the development of the horse industry, a new growth industry in the 21st century in Korea.

- Equine Industry Promotion Support Center
The Equine Industry Promotion Support Center aims to actively serve the local community through the supply of technologies and manpower in various fields necessary for fostering the horse-related industry.

Jeju Community Nursing Center

The operation vision of the Jeju Community Nursing Center is to perform all activities to improve the health level of the local community by jointly utilizing professional manpower and facilities to promote the health of the local community, strengthen all activities, develop and operate a close cooperation system with local community organizations, increase the development of programs related to health problems of local residents, improve indicators related to cardio-cerebrovascular disease, hypertension, and diabetes, and efficiently perform cardiovascular disease prevention management. It is to develop and carry out educational programs for reinforcing activities that accompany the healing and health of local residents, education for the elderly and preventing dementia.

Early Childhood Teacher Education Center

This training center intends to operate a variety of training courses for the faculty and staff of early childhood education institutions to strengthen their professionalism and on-site practical skills. Currently, we are conducting group education related to childcare such as general job education, promotion education, and pre-director job education, and we are conducting research in related fields for quality lectures. In addition, we are planning various educational programs by supporting teaching and learning methods by field teachers and activating mutual exchanges with industry companies.

Small and Medium Business Industry-Academia Cooperation Center

As a specialized institution for the promotion of industry-academia cooperation projects, it participates in projects entrusted by local governments, strengthens the annual industry-university cooperation system by linking between universities and small and medium-sized enterprises in and outside the province, and strives to improve the technology of SMEs through exchanges. For the purpose of other centers, such as attracting and managing industry-academia-research technology development projects, R&D project management and training for support companies, business support projects such as solving difficult technologies, operation of a consultative body in Jeju for small and medium-sized enterprises industry-academia cooperation, research expenses, etc. It was established and operated for the purpose of expanding the industrial base of local communities and strengthening the competitiveness of SMEs by playing a corresponding role.

HISTORY OF CHEJU HALLA UNIVERSITY

• **University Motto** | **Intelligence, Creativity, Service**

- 1969
- Beginner College Course and Establishment of Cheju Provincial Cheju Nursing School Approved
- 1985
- Founder Changed to Halla Academy Incorporated
- 1998
- School Name Changed to Cheju Halla College
 - Self-Help Efforts in Nursing Health Manpower Training
 - Outstanding University (Ministry of Education, Science and Technology)
- 1999
- International Tourism Professional Training Section
 - Outstanding University (Ministry of Education, Science and Technology)
- 2000
- Establishment and Operation of Emergency Medical Education Center
 - Outstanding University (Ministry of Education, Science and Technology)
- 2001
- Outstanding University in Activation of Emergency Medical Education Center (Ministry of Education, Science and Technology)
 - Outstanding University in Applying Problem-Based Learning Method (PBL) (Ministry of Education, Science and Technology)

- 2002
- Outstanding University in Cyber Education Program for Nursing Health Personnel (Ministry of Education, Science and Technology)
 - Outstanding University in Improvement of On-Site Skills through Problem-Based Learning Method (Ministry of Education, Science and Technology)
 - Outstanding University in Order-Style Education (Ministry of Education, Science and Technology)
 - Outstanding University in the Field of Practical High School Competitions (Ministry of Education, Science and Technology)
 - IT Manpower Training Project University of (Ministry of Information and Communication)
- 2003
- Outstanding University in Nursing and Health Workforce On-Site Skills Improvement Simulation Education
 - Outstanding University in Fostering Practical On-Site Professional Manpower through the PBL Education Consortium (Ministry of Education, Science and Technology)
 - Outstanding University in Order-Style Education (Ministry of Education, Science and Technology)
 - Outstanding University in Operation of Cooperative Educational Programs with Practical High Schools (Ministry of Education, Science and Technology)
 - Outstanding University in the Practical High School Contest Category (Ministry of Education, Science and Technology)
- 2004
- Excellent University in IT Department Curriculum Reorganization Support (Ministry of Information and Communication)
 - Excellent University in Cultural Content Specialized Equipment Support (Ministry of Culture, Sports and Tourism)
 - Nurturing Nursing Health Professionals Required by Free International Cities through S-PBL
 - Nurturing Industry-Academia Integrated Professional Manpower through On-Site Practice Academy
 - Subtropical Bioindustry Human Resources Development Program Cooperation University (NURI) (Ministry of Education, Science and Technology)
 - Eco-Friendly Maritime Industry New Frontier Professional Training Project Partner University (NURI)

- 2005
- Selected for Continuing Support of IT Department Curriculum Reorganization Support Project (Ministry of Information and Communication)
 - Selected for Continued Support for Equipment Support Business for Cultural Contents Specialized Educational Institutions (Ministry of Culture and Tourism)
 - Selected as an Excellent University for Continuous Support for Nursing Health Professionals Required by Free International City, through S-PBL
 - Outstanding University in Fostering Industry Academia Integrated Professional Manpower for Expansion of On-Site Training Academy (Order Type)
 - Regional University Innovation Competency Reinforcement Project (NURI) Partner University (Ministry of Education and Human Resources Development)
 - Regional Innovation Specialization Demonstration Project (RIS) Cooperating University (Ministry of Commerce, Industry and Energy)
 - Outstanding University in Growth Engine Specialized University Digital Contents Field (Ministry of Education and Human Resources Development, Ministry of Commerce, Industry and Energy, Ministry of Labor)
- 2006
- Outstanding University in Nurturing Nursing Health Professionals to Realize a 'Health and Safety' City in Jeju Special Self Governing Province, through Core Skill-TLP Education (Ministry of Education and Human Resources Development)
 - Outstanding University in Customized Training (Ministry of Education and Human Resources Development)

- 2007
- Signed an Industry-Academia Cooperation Agreement with Jeju MBC
 - Selected as an Excellent University in the 2007 Nationwide Employment Statistics Survey (Ministry of Education, Science and Technology)
 - 4 Year Bachelor's Degree Program Accredited (Ministry of Education, Science and Technology)
 - Nursing Department, Health Department

- 2008
- Running Nursing Curriculum Linkage with The University of Newcastle in Australia
 - Selected as 'IT Working Personnel Training Project' by the Information and Communication Research Promotion Agency
 - Selected as the Best University in the Junior College Specialization Project Excellent Case Contest (Ministry of Education, Science and Technology)

- 2008
- 2008 Selected as an Excellent University in the Employment Statistics Survey National (Ministry of Education, Science and Technology)
 - Selected as the University with the Best Music Department by in the Vocational College Evaluation of (Korea Council for University Education)
 - 4 Year Bachelor's Degree Program Accredited (Ministry of Education, Science and Technology)
 - Tourism Department, Communication Computer Engineering Department

- 2009
- Signed a School District Exchange Agreement with the Navy's Jeju Defense Command
 - Changed the Titles of Principal and Vice Principal to President and Vice President
 - Produced 39 Bachelor's Degree Graduates through 4 Year Bachelor's Degree Program
 - Selected for the Job Support Project for Young Women with High Education Tailored to the Local Community (Ministry of Gender Equality)
 - Selected for the University Employment Support Function Expansion Project (Ministry of Labor)
 - Confucius Institute Opened
 - Selected as the Best University in the Vocational College Education Competency Reinforcement Project (Ministry of Education, Science and Technology)
 - Selected as a Commissioned Educational Institution for the Participatory Cultural Organization (Culture PD) Project
 - Selected as a Consignment Institution for Cultural Contents Specialized Education
 - Joint Curriculum Operation and Multiple Degree Program Agreement Signed with Swiss Hotel University (SSTH)
 - Selected as an Operating Institution of Vocational Training Consortium for SMEs
 - Signed a Scientific Broadcasting Business Cooperation Agreement with YTN Science TV
 - Signed a Joint Production Agreement with KCTV Jeju Broadcasting and Jeju Free International City Chinese News
 - Signed a Joint Curriculum Management Agreement with the University of Chichester, UK
 - Japan Shiga Kogen Hotel Association Signed an Agreement on Overseas Employment Training Program in 2010
 - Signed Business Agreement with Jeju Tourism Organization
 - Selected as the Best University in Management Analysis by the Korea Advancing Schools Foundation
 - Selected for the University Lifelong Education Activation Support Project (2009-2012, Ministry of Education, Science and Technology)

- 2010
- Hosted the Jeju Free International City Cultural Tourism Academic Symposium
